ABOUT

10+ years across broadcast, retail, healthcare, education and branding

My career has moved through live television, luxury retail, healthcare communication and international education. The common thread is problem-solving: understand the real need first, then build something simple that works.

What I do now

- Strategic operations and client success
- CRM design and internal tools, built end to end
- AI-assisted workflows and automation
- Student counselling for UK admissions and visas
- Content strategy, social media and short-form video, including AI-generated film

How I work

- **Understand.** Find the real challenge before proposing solutions.
- **Simplify.** Break complex problems into clear actions.
- **Collaborate.** Align teams, customers and stakeholders.
- **Deliver.** Judge success by outcomes, then keep improving.

10+
years across five industries

645
partner universities in the course finder I built

20,000+
projects delivered

Principles

Build trust before building solutions. Focus on outcomes, not activity. Turn complex problems into actionable plans. AI should support human decisions, not replace them.

SELECTED WORK · STEP4PROGRESS

Building the operational backbone of a study-abroad consultancy

Step4Progress is a UK-affiliated study-abroad consultancy with offices in India, the UK, Pakistan and Bangladesh. I joined in February 2026 as Business Development Manager and UK Student Counsellor. The team had no CRM, no structured pipeline and little digital infrastructure. I built it.

Systems I built

- **Custom CRM** built in 15 days, with role-based access, lead management, bulk upload and view-only access for the India team
- **Course Finder** covering 645 partner universities, with AI course suggestions
- **Resource Library** with lead-gated downloads
- **Call recording** connected to the CRM, plus Meta and Google Analytics 4 reporting
- **Student Portal** with animated lessons and mock tests

Counselling and admissions tools

- **Admission Intelligence tool** for counsellors: statement-of-purpose drafting, resume and recommendation-letter review, and an AI-detection check
- **Scholarship Finder** with verified scholarships, filterable by destination, level and category
- **Scholarship Handbook**, a 21-page guide, and checklists for Indian government study-abroad schemes
- Interactive tools for students: country quiz, cost calculator, visa eligibility checker and an AI counsellor chatbot

Marketing and content

- Instagram grew from 300 to 1,030+ followers in 10 days through organic content
- Content calendars and strategy for Instagram, Facebook and LinkedIn
- AI-generated short-form videos and reels
- Lead-generation pages and a WhatsApp connector page
- Technical SEO: schema fixes, image compression and lead-routing corrections
- Educational booklets, a corporate profile booklet and print-ready business cards

Day-to-day responsibilities

- Guide students through UK admissions and visa processes
- Improve counselling workflows and documentation
- Maintain and extend the CRM as the team's needs change
- Turn feature requests from the UK and India teams into CRM updates
- Prepare visa-interview coaching materials and student CV documents

Stack: Supabase, GitHub Pages, Netlify, Anthropic API, Twilio, Meta Ads API, Google Analytics 4. **In planning:** a WhatsApp call recording and summary pipeline for UK student calls.

INAI · CREATIVE-TECHNOLOGY COLLECTIVE

Where creativity meets intelligence

INAI takes its name from the Tamil word for "to connect" and draws on the kolam, the South Indian art of interconnected patterns. It brings creative, systems, digital and growth work together for startups, small businesses, recruitment firms, education consultancies and professional-services teams.

CREATIVE

Brand and communication

Brand identity, social media design, content strategy, marketing collateral and corporate presentations.

SYSTEMS

Operations and automation

AI automation, CRM architecture, lead management, process optimisation using Lean Six Sigma methods, and tool integrations.

DIGITAL

Websites and experiences

Business and portfolio websites, landing pages, app prototypes, client and student portals, and interactive web experiences.

GROWTH

Strategy and lead generation

Marketing strategy, lead generation, business-development support, communication consulting and 90-day growth plans.

The I → N → A → I framework

Idea
Understand the real goal, not just the stated need.

Network
Map the people, systems and channels that matter.

Action
Build, design, write and deploy.

Impact
Measure results and keep improving.

Featured work

- Full CRM and automation for Step4Progress
- Study-abroad consultancy brand identity
- Full-stack CRM for a recruitment firm
- INAI's own brand identity, built on the kolam

Best fit for

- Teams with heavy manual work and no CRM
- Founders who need systems before hiring
- Businesses with a weak or missing website
- Companies with a product but no pipeline

EXPERIENCE

Career timeline

Feb 2026 to present

Business Development Manager and UK Student Counsellor, Step4Progress

Guide students through admissions and visas. Built the company's CRM and digital tools. Grew Instagram from 300 to 1,030+ followers in 10 days.

Jan 2025 to Feb 2026 · Chennai

Content and Client Communication Lead, Vibe Media and Production

Main coordination point between clients and the creative, editorial and production teams, for jewellery, healthcare and lifestyle accounts.

Jun to Sep 2024 · Madurai

Assistant Store and Brand Engagement Manager, Titan Company (Tanishq)

Reached 120% of the sales target through consultative, relationship-led selling and VIP client care.

Dec 2022 to Jun 2024 · Chennai

Senior Digital Content Strategist, BCC Martech

Raised healthcare campaign conversion from 20% to 55% by rebuilding the communication strategy: channel mix, messaging and follow-up.

Jun 2019 to Dec 2022 · Chennai

Studio Head and Business Operations Coordinator, Unique Very Indian Studio

Lifted lead-to-client conversion from 30% to 60% and coordinated clients, vendors and production teams.

Nov 2016 to Apr 2019 · Chennai

Associate Program Producer and Production Coordinator, Cauvery News

Produced business, sponsored, lifestyle and public-interest programmes, and managed sponsor communication under tight deadlines.

May 2014 to May 2016 · Chennai

Brand Communication and Customer Engagement Associate, MAuto

Handled customer enquiries and vendor follow-ups, and supported campaign coordination.
